MD Emran Hossain

Aspiring Full-Stack Developer

Khulna, Bangladesh | +880 1965-419840
me33799@gmail.com

PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer currently learning through Programming Hero, with approximately six months of focused study. Building practical web projects and strengthening skills in responsive UI development, JavaScript, React, Next.js, and API integration. Brings a technical diploma background, a problem-solving mindset, and a willingness to learn, collaborate, and grow in a junior developer role.

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, React, Next.js, Tailwind CSS
Web development	Responsive design, component-based UI, routing, forms, loading/error states
Integration & tools	REST API integration, Git/GitHub, npm, VS Code

SELECTED PROJECTS

Bazar Dor — Bengali Grocery Price Website
Next.js, TypeScript, Tailwind CSS, REST API
Building a Bengali-first grocery price interface with product/category browsing, price sorting, responsive layouts, and authentication-related routes.

Bangla News 24 — News Website
Next.js, TypeScript, Tailwind CSS, News API
Developing a Bengali news experience with category browsing, article details, latest/most-read content, and loading/error handling.

EDUCATION

Diploma in Mechanical Engineering 2016
City Polytechnic Institute, Khulna

Secondary School Certificate (SSC) 2011
Sha-eed Sohrawardi High School, Khulna

ADDITIONAL EXPERIENCE & STRENGTHS

Previous technical experience and training in computer hardware servicing, electrical maintenance, and mechanical workshop skills. Comfortable learning independently, working with others, and approaching tasks with patience and a practical mindset.

LANGUAGES

Bengali (Native) • English (Reading, writing, and speaking)
